TY Information 2020/2021 – Domestic Parents

19/4/2020

Dear Parents & Guardians

As promised in my email of 3/4/20 I have prepared a 30 minute video-accompanied slide presentation outlining the elements of the upcoming TY year. Please find the video link [here](#). The video, [2020/21 TY Booklet](#) and previous email from April 3rd can also be found on the [TY website page](#), which we plan to update regularly throughout the summer.

There is no doubt that you have many more questions about the reopening of school for the new term. Please rest assure that the health and safety of all our students will remain our top priority, and we will communicate as soon as we receive further government updates.

This will necessitate some remedial changes to the school environment over the summer. We are watching closely what other countries, like New Zealand and Australia, are planning for the reopening of boarding schools and schools of our size, while also working collectively with our Irish counterparts.

Please have your child continue to research their work experience, read through the TY booklet and watch the video, which will be uploaded to their google drive. We will do everything we can to ensure they have an enjoyable TY year to remember, even if we have to make some necessary changes along the way.

Please feel free to [email](#) me with any questions you may have, after watching the video.

Yours,

Noel Cunningham
